## LIMITED WARRANTY REGISTRATION FORM

***Warranty is valid only when radiator has been removed and cleaned, oil and oil filter are changed at 200-hour intervals and air filters every 500 hrs.***

***In the event of a failure, Heavy Quip Inc / dba Dieselsales will NOT be liable for any labor for the removal or installation of unit.***

***The following check list must be adhered to at times of installation, failure will void this warranty:***

1.  ***Radiator removed and cleaned.***
2.  ***Oil & Water levels correct.***
3.  ***All filters replaced - oil, fuel, water and air (both inner and outer).***
4.  ***Check and replace fan belts, if needed. Overheated engines due to broken or slipping fan will void the warranty.***
5.  ***Inspect air intake system (Hoses, clamps, pipes and air cleaner assy) and replace if needed.***
6.  ***Oil cooler replaced. ,(Short block assy.) belts, thermostats and hoses replaced.***

**NOTE: ALL ENGINES ARE RUN TESTED ON OUR DYNAMETER UNDER VARYING LOADS FOR 4 HOURS OR MORE.**

**No brake in period is required after installation.**

**Start engine and let idle, until warmed up, which will give you time to check for any oil, water, intake or exhaust leaks.**

**Check all gages and warning lights to make sure they are working properly.**

**Check air cleaner assembly and piping carefully before installing them on the engine.**

**A small air leak in the intake system can, and will, destroy an engine in a matter of hours.**

**Once your unit reaches normal operating temperatures, verify there are no leaks.**

**Shut unit down and recheck all fluid levels.**

**Restart and run unit as you normally would.**

**For the first couple of days, check oil and water levels two times a day.**

**If you should have any problems, call your sales person immediately.**
